

WHAT BACKUP PUMP ARE YOU TRUSTING?

INTRODUCING THE ALL NEW, UNBELIEVABLE TECHNOLOGY, PERFORMANCE, AND NOTIFICATION OF THE PEAKFLOW 5600 AND 2800 ePUMP SYSTEMS. *18 patents pending!*

PEAKFLOW 5600 ePUMP

The most advanced system ever made.
Compare to anything!

Can Your Pump?:

--Notify you of over 30 possible *specific* alerts via phone and email? This is not just a cheap simple dialer, this incorporates smart home technology and sophisticated server protocol and software.

--Self Diagnose ANY failure or even *Potential* failure? Every 12 hours the ePump will run thorough testing to ensure any potential failure is known right away!

--Pump a capacity of up to **93 gpm / 5600 gph** to a 10' lift? With dual pumps and sensors, not only does the 5600 ePump achieve the highest capacity in the industry, the homeowner benefits from pump redundancy.

--Run for over 14 *continuous* hours! That's nearly 6 days at a 10% duty cycle! No system runs longer or is more efficient.

YOU GET WHAT YOU PAY FOR

get your PeakFlow 5600 and 2800 ePump Systems from...

PEAKFLOW ePUMPS
Install it and FORGET it!
The PEAKFLOW ePUMPS will tell
